

The Mineral Stone for Poultry

Peckstone pecking blocks are designed to satisfy the birds' desire to forage, scratch, and peck.

PECKstone™ Pecking Block

- ✓ Ensures active preoccupation of birds
- ✓ Enables natural behaviour during the search for food
- ✓ Reduces stress from day-old
- ✓ Helps to prevent feather pecking and cannibalism
- ✓ Supports natural beak wear
- ✓ Easy and clean handling

Ingredients selected from:

Calcium carbonate, monocalcium phosphate, salt, magnesium oxide, sodium sulfate, magnesium sulphate, wheat bran.

Typical analysis:

83% ash
22% calcium
4.5% phosphorus
4% sodium
2.5% magnesium

Recommended use

A Peckstone should ideally be introduced from day-old but can be introduced at any stage during the production cycle.

For chicks and broilers

- Remove Peckstone from bowl and place directly on the floor.
- Provide 1 Peckstone per 1,000 birds.

For laying hens

- Place Peckstone on top of overturned bowl.
- Provide 1 Peckstone per 500 to 800 birds.
